Subject:	RE: baicells - Application for HNI

Great work Andy! I will sync up with the respective PMs in China to prepare for the PLMN change.

Thanks,

Jesse Raasch

Yes sir

Exactly right

Glad we could get it sorted out

Thank you sir

Subject: FW: baicells - Application for HNI

Hi Bo & team,
Have call this morning with iConectiv staff, Baicells can apply the HNI as the Service Profile
management system, without FCC number.

I will move on to apply the HNI, please advise the following:
- Please find the attached file and let me know if the information correct
- Please advise if I shall be the authorized person to sign the application
- iConectiv suggest to file online, their customer care will contact me for credit card information
  (payment of $325 nonrefundable).   Do I need to involve Susie or use my credit card and
  reimburse afterward

PS: Chad, we do not need to get the FCC Wireless License registration information no
more.   Thanks for your effort.

Regards,

Andy Yang
Director of Engineering & Services

Subject: RE: baicells - Application for HNI

Thanks Natalie,
From technical point of view, our cloudcore broadcast "311-98" which shall not conflict to the network
of "311-980"; but we still urgent need to have our assigned HNI to avoid confusion.

We will submit the application this week, please advise which method would be better:

1. Email to iConectiv the application form and provide the credit card number for payment
2. FeDex the application with check to the following address

IMSI Administrator
Telcordia Technologies, Inc., dba iconectiv
100 Somerset Corporate Blvd., Room 6E-603E
Bridgewater, NJ 08807
Phone: +1 866-672-6997 Email: IMSIadmin@iconectiv.com

Thanks for your help!

Subject: baicells - Application for HNI

Andy,

Per our discussion this morning, since BaiCell is a provider of a Service Profile management system, there is no requirement for an FCC Wireless license to obtain an HNI code.

When filling out the HNI application the second field to populate states "Select the type of entity requesting the HNI" – Select the Provider of a Service Profile management system from the dropdown. Where the application requests: "If applicant determines that no authorization is required, State reason" – Enter that a license is not required as you are a provider of a Service Profile management system.

Do you think your application will be able to be submitted this week? Since your company is currently using an HNI that is assigned to another company, I am hoping we can get this HNI assigned ASAP to allow you to begin the process of moving off of the current HNI.

If you have any questions, please let me know.

Ryan,
If there is anything I missed on the above, please "reply to all".

Thanks

Natalie McNamer
